

/home/dujeonglee/Network
CodingRev/c_cpp/api.h

```
graph TD; A["/home/dujeonglee/Network<br/>CodingRev/c_cpp/api.h"] --> B["stdint.h"]; A --> C["functional"];
```

The diagram illustrates a file dependency or inclusion. A top-level box, shaded gray, contains the file path `/home/dujeonglee/Network CodingRev/c_cpp/api.h`. Two blue arrows originate from the bottom edge of this box, pointing downwards to two separate white boxes. The left box contains the text `stdint.h`, and the right box contains the text `functional`. This visualizes the `api.h` file including or depending on these two other files.

`stdint.h`

`functional`
